about nutriMenu

- nutriMenu facilitates planning of healthy menus for all age groups,
- it is based on official nutrition guidelines and recommendations of Société Suisse de Nutrition,
- nutriMenu evaluates nutritional quality of menus and proposes suggestions for improvements,
- it offers a nutritional score to assess evolution over time,
- it is packed with didactic material for continued learning,
- and creates a pdf of menus ready for publishing.

OUR TEAM

At Myravan solutions, we are a team of dietitians and developers and aim to leverage technology to reduce diet-related public health issues.

I highly recommend nutriMenu to all cooks who have not yet used it,

"... it's a very helpful tool"

Florim Krasniqi

CUISINIER, CVE VALENCY, LAUSANNE

nutriMenu is a super useful tool that allows me to analyse the nutritional balance of my menus,

"... to use without moderation !"

Filippo Pisano

CUISINIER, CVE MONTELLY, LAUSANNE

nutriMenu has completely changed the way we work, it allows us to assess the nutritional balance of children's meals,

"... it helps us improve our menus"
